Do not be afraid of lifting your horses feet, even though it is a video, it is a part of confirmation class. The front feet are too close together and the left front is turned in.

Pivots were great especially for a mini! Great job.	Make sure to do your quarters at the inspection. You were just a tad slow on moving over at the shoulder. When the judge puts one foot past the shoulder, you should be moved over.

I liked that you were showing off your horse.	Work on a pivot that is more than a 90 degree turn. The 270 pivot is used a lot in patterns.

I love this smoothness of the trot. Sets up beautifully.	Work on the pivots. Keep your left arm tighter to your side. In the online video, have the person videoing it be the judge. Have them walk around the horse just like if we were in person. This gives the judge a better idea of the inspection.

Work on your pivots. Make sure to not switch over in the inspection until the judge has one foot past the shoulder and rear end. You were a little early on your transitions.

Make sure to extend the jog even more, I could see a slight difference but not a huge one.

I would have liked to see just a little more difference in the jog and the extended jog. Make sure to do an extended lope in ranch.
3rd	Jessica Rivard	Poco Mac Bar	98	Ranch Horse Pleasure	<a href="https://www.youtube.com/watch?v=UJokKR7crvg">https://www.youtube.com/watch?v=UJokKR7crvg</a>	The transition from the trot to the lope is good. It was all consistent.	In ranch when you extend the trot, you posted but there was no movement change. I should be able to see a difference between the trot and extended trot. There should also be an extended lope in this class.

The lope was nice.	Make sure to do more trot in the class and make sure there is an extended jog and an extended lope each direction. There was not enough jog in this video.

Make sure to really push for the extended trot. There was not a very large change from the jog to the extended.

The extended jog should be a noticeable change.

Make sure to work on your walk to lope transition. Also, try and keep the turn around tight. Work on the lope to stop transition.

The transition from the walk to the lope is great.	The pattern calls for a walk and then a lope at the very beginning, you did a jog after the walk.

Good job on doing all of the obstacles.	Make sure to work on the obstacles that have ground poles. You hit the poles on the side pass and the back through.

The poles are tacken way too wide. The run back was way too wide. Make sure to try and get closer to the poles for the run back.
