	efficient movements		horse is steady in all						too close to back feet		steady, calm	overall comment: have more purpose in ranch classes; you've got a job to get done so be efficient in movements and a quicker pace
220	8	9.5	9.5	6	8.75	9	9	9	9	5.5	7.5	90.75
	extra movements to get gate shut	steady		hesitated SP		stood well			good position of log	awkward dismount	dismount caused horse to move away	Overall comment: steady rider and mount, work on head position so gives more relaxed appearance. Like flow as in get the job done for ranch work
